

## **Whitman Walk – from Cecilia Rubino:**

We will need to go from the middle of the bridge and instead of going up the bowery, we need to go around **City Hall park** and go up **Broadway**, through **Soho and to Astor Place** (if students can make it in the 40 degree temperature). Have lots of Whitman sites now on Broadway and will work on how to integrate the poems. This will necessarily be an experiment as I have not done this before. But lots to say and hope this change of direction works for you. Best for sites I think that are of interest.
